## Jeff Blanchard

---

---

Jeff Blanchard has been with PROCEED NCTSTA for over 6 years. Mr. Blanchard is the **Manager** of our **Capacity Building Assistance for Agency Infrastructure Development Services** program, as referred to as the **CBA for AIDS** program. Mr. Blanchard's program is responsible for addressing the organizational development need of community and faith based organizations throughout the United States, Puerto Rico and the US Virgin Islands through on-going assessment and locally implementing capacity building assistance aimed at strengthening HIV/AIDS Prevention Programs.

His tasks include partnering and ongoing collaborations with federal, state, local and private policy makers and funders to provide the tools, knowledge and skills necessary to enhance, maximize, and sustain the organizational infrastructure and intervention services of HIV/AIDS service organizations. He coordinates one-on-one technical assistance and consultation to community based organizations through a process of comprehensive assessment, tailored intervention, and evaluation, with the goal of enhancing and improving organizational infrastructure in fiscal management, human resource development, strategic planning and board development, resource and fund development, evaluation and quality assurance, technology development, grantsmanship, executive coaching and others.

After spending many years in grass roots non-profit organizations and youth centered agencies, Jeff has honed his skills in organizational development, acquired an intimate understanding of the complex issues surrounding HIV/AIDS education, prevention and treatment and developed a keen sense of commitment toward those at high risk, infected or affected by the HIV/AIDS disease.
